

Tiger Team Engineering (TTE) is an SDVOSB that helps defense and aerospace programs restore program performance, strengthen supplier execution, and reduce supply chain risk.

We deploy experienced professionals on-site and remotely to recover struggling suppliers, eliminate production bottlenecks, and improve delivery performance.

Our integrated approach combines supplier management, delivery assurance, quality oversight, supply chain analytics, procurement support, and lifecycle sustainment to improve execution across the program lifecycle.

Past Performance

TTE has supported aerospace and defense programs, including:

- L3Harris
- U.S. Marine Corps
- Boeing

Relevant Execution Experience:

- Supplier Recovery
- Production Recovery
- Supply Chain Optimization
- Supplier Surveillance & Oversight
- Procurement Optimization
- Diminishing Manufacturing Sources & Material Shortages (DMSMS)
- Lifecycle Management Support

Core Competencies

- Engineering Services & Support
- Delivery Assurance
- Supplier Management
- Supply Chain Management
- Supplier Performance
- Logistics & Sustainment

Differentiators

- Improved On-Time Delivery by **90%**
- Reduced Lead-Times by **55%**
- Reduced Costs & Waste by **44%**
- Increased Production Rates by **35%**
- Improved Procurement Efficiency by **48%**
- Managed **100+** Suppliers Relationships
- SDVOSB

GSA Contract Vehicle

Contract Holder
Contract # 47QRCA24DV359

Available through GSA OASIS+ for Management & Advisory, Technical & Engineering, and Logistics domains.
